

## Can you help? Rainbow artwork

Some of you have already created some beautiful rainbow artwork that is being showcased in your windows. However, there is now another way for you to share your creations to make others happy as well. It would be fantastic if you could produce a piece of artwork featuring a rainbow or a colourful drawing with positive messages.

Once you have completed your artwork, you can ask your adults to share it online using the hashtag #RainbowsforNightingale so that members of the NHS can see your beautiful artwork in a safe way.

You could also send your rainbows to family members or friends through the post with a message to cheer them up. Or, you could send them to local residential care homes to put a smile on their faces.

You can also take a photo of you with your rainbow masterpieces and email them to Mrs Thomson so that we can see your wonderful artwork! It might even go up on the school website too.

### **Health and safety guidelines around rainbow artwork**

As always, you're being encouraged to follow the strict hygiene guidelines when creating your rainbow masterpieces.

Hands must be washed or gelled after handling post and social distancing rules of two meters need to be followed when heading to the Post Office/post box.

Make sure if you are sharing artwork that you do this safely and do not disclose your full name or address.
