

Have fun designing and making a desert island.

Read some pirate stories and imagine yourself as a pirate on the high seas looking for a place to hide his treasure! Can you collect things to make a desert island? You could make it large or small, indoors or outdoors, in a day or over a week. You could draw, paint, print, tear and fold. Cut and measure accurately and then you could make some pirate accessories like a hat, eye patch, parrot or hook!

Start pretending!
