

At the moment there are lots of beautiful colours around us. I'd like you to explore the colours in nature. Go outside and try to find things that match these colours. Once you have your collection you could either stick small pieces on the chart, paint a part of your object, draw and colour it or a mixture of all three. Try to match the colours as closely as you can.

Look for different colours around you. Draw what you find.

Can you write the object's name?

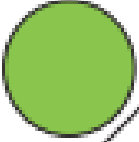

Something red

Something orange

Something green

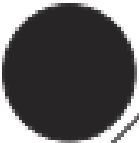

Something yellow

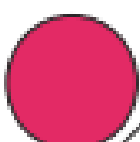

Something blue

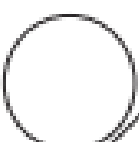

Something black

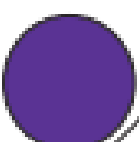

Something pink

Something white

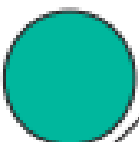

Something purple

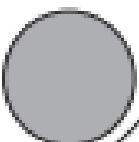

Something multi-coloured

Something turquoise

Something grey

What is your favourite colour? \_\_\_\_\_
