

Friday 8th January 2021

Morning Sapphire, it's Friyayyyyyyy! We've made it to the end of our first week, I hope you're all okay and it hasn't been too stressful. Remember, looking after each other and ourselves now is everyone's first priority. So, make sure you are well behaved and helpful for your parents, get into a routine, keep fit and get to bed early. Try not to spend too much time gaming, make time for other activities that exercise your mind and body in different ways. Remember you can join Joe Wickes on Monday at 9am on You Tube. Think about *random acts of kindness*, can you think of one that you could do for a member of your household? Maybe you could challenge yourself to do one each day. The love and kindness you give out, you'll receive.

Maths: Efficient multiplication. Use the video lesson and have a go at the activity sheet. As usual there's also a challenge for those of you that would like more or something a little harder. **Parents**, just so that you're aware, I've put the challenge answers at the bottom of the page.

English: Today we'll be continuing with our story *Sabryna and the River Spirit*, Again, watch and read along with the next chapter on [\(1\) Daily Reading | Sabryna and the River Spirit Part Three | Twinkl Originals - YouTube](#). Use the Guided Reading PDF from yesterday and answer the questions relating to chapter 3. Remember that your answers need to be in full sentences, with correct punctuation and spellings (especially if they're in the book or on the guided reading pdf).

Topic: Today you're going to look at the water cycle, you can watch this fun video [What is the water cycle? - BBC Bitesize](#) and use the Power Point to help you understand this process and then complete the activity sheet. Please use your neatest handwriting, make sure your spellings are correct and colour in the diagram. The Power Point has 2 other activities which you may want to do at some point if you wish, I've included the resources.

Bad Teacher Joke: What did the small mountain say to the big mountain?

Hi there Cliff!

Just for fun...

■ Draw a line through the maze from the arrow (→) to the star (★).
