

Tuesday 19<sup>th</sup> January 2021

Morning Sapphire, I'm really excited about our Teams Circle Time today, it will be lovely to see you all and have a good catch up. Also remember to fit in your daily sports challenge from your Hactive sheet or do one of the activities at the bottom of the page. Enjoy your day.

Maths: We will be continuing with Divide 2-digits by 1-digit. I know division can be tricky, so it will be our maths focus for the week. Watch this video and [Spr4.2.4 - Divide 2-digits by 1-digit \(2\) on Vimeo](#) and have a go at the worksheet. There's also a challenge sheet for those who want it.

English: Research – This term in RE, we're looking at Sikhism. Your task for today is to start your research. I've included a power point, some short videos and some questions for you to answer to get you started. This will eventually lead to creating a non-chronological report. [What is Sikhism - Bing video](#), [The Beginnings of Sikhism - Bing video](#), [Religions of the World - Sikhism. - Bing video](#) . Please answer your questions in full sentences, capitals letters, full stops and correct spellings.

PSHE: Teams Circle Time. We will be starting our session at 1:30. When you join the meeting, you'll be in a waiting room, I'll let you in one at a time, be patient, it shouldn't take long. Please don't adjust the features, for example background, it's very distracting for you and others. We need to keep our microphones on mute unless we're talking, otherwise you get lots of noise disturbance and can't hear what others are saying. We'll all get a chance to talk and I'm sure it will be really good fun, but we must remember to follow the rules.

PSHE: Last week we looked at Pride. Today I want you to explore Feelings. I've attached a power point for you to look at (if you collect printed packs from school, you can view this power point on the school website, in the home learning folder) and then an activity which asks you to list emotions and then draw the facial expressions that go with each one. This activity will help you to show understanding of different feelings, identify how emotions felt on the inside might look on the outside, explore the different times you experience certain feelings and reflect on how you can support others when they are experiencing different emotions.

### **Daily exercise activities**

Go on a welly walk with your family  
Go for a run with a member of your family  
Play football in the garden  
Practise your throwing and catching  
Complete a Joe Wicks workout  
Yoga moves with Cosmic Kids Yoga online  
BBC Super Movers videos

Bad Teacher Joke:

Q. How do you know that bees are happy?  
A. Because they hum while they work.

Just for fun...
