You need a smooth surface like the kitchen floor or hallway and three pairs of socks. Place a target at one end and then slide the socks along the floor to try and get as close to the target as you can. Watch the video and have a go at home.

Personal, Social, Emotional Development

Do something that you love – something that makes you feel good.

It could be painting, drawing, dressing up, reading, writing, building with Lego, wearing your favourite outfit

Communication and Language

Put a selection of objects with different shapes and textures into a bag. Ask children to take turns putting their hands in, feeling one of the objects and describing it to the others (without looking at it) in as much detail as possible.
